

WILLIAM J. BRYAN ENDORSES LEAGUE OF NATIONS PLAN

Suggests Amend- ments to Preserve Monroe Doctrine

(By The Associated Press.)

WASHINGTON, March 11.—(William Jennings Bryan issued a statement here tonight endorsing the league of nations, but suggesting amendments to the proposed constitution which among other things would preserve specially the Monroe Doctrine, and enlarge the proportionate voting power of the United States and make it clear that each member nation might decide for itself whether it would support decrees of the league's general council.

While intimating to imperfections Mr. Bryan urged that they should not be allowed to lead to rejection of the plan, declaring that risks to be run in accepting the league were less than those involved in rejection and returning to the old ways of blood and slaughter.

Mr. Bryan dictated the statement from his sick bed where he has been confined for nearly three weeks. He said the league of nations idea, "the greatest step toward peace in a thousand years," was taken from the thirty arbitration treaties negotiated by the United States while he was secretary of state. It was not to be expected he said, that so great an idea would be made perfect in detail in so short a time and added that while President Wilson had done the best he could, he would be helped by intelligent and friendly criticism from the American public.

Bryan's Statement.
"The league of nations is the greatest step toward peace in a thousand years. The idea of substituting reason for force in the settlement of international disputes is in itself an epoch-making advance. The constitution of the league as announced provides for three things which constitute in themselves an advantage the importance of which scarcely can be estimated. Deliberation before war, the investigation of all disputes of their kind and character before hostilities begin.

This almost ends war. Ideas in taking for thirty treaties negotiated by the United States with three quarters of the world. Our nation therefore gives to the peace league its greatest peace of machinery. Second the reduction of armaments will make it impossible for a nation to prepare for war without notifying the world of its intention. Third the abolition of secret treaties which would do much to prevent the combinations which lead to war. If the league of nations did nothing more than provided these three things our nation would be justified in supporting it to the utmost.

It is not to be supposed that the idea of the league of nations would be made perfect in detail in so short a time. There are defects that should be corrected and the fullest discussion of proposed amendments should be invited.

"I venture to point out certain amendments that should in my judgment should be made. First the basis of representation is not fair to the United States. A comparison of voting strength will show that while our nation is the most powerful in the combination it has no larger vote than nations much inferior in population, wealth and influence. This inequality ought, if possible to be corrected.

"Second the terms of admission to nations that may desire to join hereafter are not fair. To require a two-third vote to admit a new nation, suggests the social club where a few blackballs may keep out an unbecoming applicant. The qualification for admission ought to be fixed, and then it ought to be made as easy as possible for those who are qualified to gain admission. Under no circumstances should a majority of more than a majority be required for the admission of any qualified nation.

G. O. P. Complete Reorganization Of Next House

(By The Associated Press.)

WASHINGTON, March 11.—Republican organization for the majority control of the next house was completed today with the selection of Representative Frank W. Mondell of Wyoming as floor leader, Representative Harold Knutson of Minnesota as whip and Representatives Winslow, Mass.; Moore, Pennsylvania; Longworth, Ohio; Madden, Illinois and Dunn, New York, as the steering committee to have charge of the legislative program. Mr. Mondell will be chairman of this committee.

Selection of Mr. Mondell was made after Representative James R. Mann of Illinois, Republican leader in the last house, had refused to accept the post when elected by that committee.

Representative Longworth of Ohio, vainly sought to prevent the committee taking up the floor leadership selection at this time and after Mr. Mann's nomination he refused to vote the Ohio delegation, which he represented.

Committee members generally said they expected the party conference to be called a few days before the congress meets in special session would ratify the selections made by the committee.

Mr. Mondell was elected easily receiving 160 votes. On the preceding ballot, Mann being second.

Three candidates were nominated for whip. Mr. Knutson received 118 votes against 41 for Representative Arthur of Oregon and 23 for Representative Vestal of Indiana.

Final approval of committee assignments will be made by the committee on committees at a meeting next Thursday.

Representatives Mann and Moores of Indiana were named to check the assignments and fill any vacancy that remains in the Republican roster.

**Cliffe Bill Would
Create Two New
Districts In State**

(By The Associated Press.)

SPRINGFIELD, Ill., March 11.—Senator Adam C. Cliffe, of Syracuse, president pro tem of the senate, announced tonight that he would introduce a bill in the upper branch tomorrow proposing a congressional reapportionment in Illinois which would add two congressional districts to the twenty-five now existent. The measure, emanating from Republican sources, would eliminate the two present congressmen-at-large.

The new proposed districts would be known as the twenty-sixth and twenty-seventh. One would be within Cook county and composed of small towns in the county outside the limits of Chicago.

Northern Illinois would get another district. Under the Cliffe bill it would be made up of the counties of Will, DuPage, Lake and a part of Cook.

The readjustment would take away from the 12th district Kendall and Grundy counties which would be added to the 11th district to recompense it for territory sliced away to form the new district. In addition to Kendall and Grundy counties the 11th district would have Kane and McHenry counties.

The two proposed districts are said to be heavily Republican. Democratic opposition to passage of the Cliffe bill therefore is anticipated.

The senate met at five o'clock, advanced bills from first to second reading and adjourned until tomorrow.

Action on house contests in the 19th, 21st, 32nd and 46th districts was postponed until next Tuesday by the special committee on contested elections of which Edward D. Shurtliff is chairman. Dismissal of all the contests was forecast after today's committee hearing.

Representative Ralph W. Church of Chicago, said tonight that he would introduce probably tomorrow a second bill to license boxing, drafted in accordance with the wishes of Chicago ministers who opposed pending measures at a public hearing last week. Provisions of the bill as outlined by Mr. Church will be:

No decisions, ten ounce gloves, bouts not to exceed six rounds, no regulatory commission, no license fees.

PLANS LAID FOR FINANCING ROADS NEXT FEW MONTHS

Conferences Held Be- tween Rail Chiefs and U. S. Officials

(By The Associated Press.)

WASHINGTON, March 11.—Railroad executives and government representatives today laid the foundation for the machinery through which the loans of banks and the war finance corporation will be made available to railroads during the next few months in lieu of the funds which congress failed to provide.

After conferences between a number of leading railway corporation officers, and officials of the war finance corporation and railroad administration a special finance committee of seven headed by Howard Elliott, president of the Northern Pacific was created by the railroad executives to co-operate with government agencies as a clearing house for financial arrangements.

Swager Shirley of Louisville was appointed by Director General Hines as director of the administration's division of finance, succeeding John Skelton Williams resigned. Mr. Shirley will take office April 15.

Important Feature.
An important feature of the financial mechanics of the arrangements to be made by the railroad executives with the railroad administration of government warrants to railroads for the amounts due them on settlement of last year's accounts and other debts. These warrants, virtually certificates of indebtedness would not be asked until congress appropriates funds at the next session but would serve as collateral for loans. The loans would be arranged by each railroad company individually with its bankers or in special cases with the war finance corporation.

The railway executives special committee together with the railroad administration's financial agencies would facilitate the negotiations and distribution of these loans. Companies whose financial strength was not great might be helped by the railroad administration which will get some funds thru repayment by railroads of advances already made to them.

Plans Outlined.
These plans were outlined today by Director General Hines and the railway executives, but it was emphasized that final plans remain to be made. Railroad administration and war finance corporation officials will confer tomorrow with Secretary Glass of the treasury and Thursday Mr. Hines will discuss the financial situation with railroad car and locomotive builders and with the executives committee.

It appears probable that the war finance corporation will try to limit its loans to railroad corporations with ample credit without reference to the government warrants as collateral and every effort will be made by the government agencies to encourage bankers to take up most of the loans required. At the same time the railroad administration will try to establish a large degree of uniformity in interest rates. Secretary Glass at the conference tomorrow is expected to emphasize the desire of the treasury to keep railway securities off the market until after the Victory Liberty Loan which probably will close May 10.

**TAFT ANALYZES
KNOX'S OBJECTION**

(By The Associated Press.)

NEW YORK, March 11.—Analyzing Senator Knox's objections to the proposed covenant of the league of nations, Former President William H. Taft in an address here tonight before the economic club declared that the covenant does not transfer the sovereignty of this nation to the governing body of the league, which Senator Knox asserts the executive council to be.

"When Senator Knox's attack upon the validity of the covenant is analyzed, it will seem to rest on an assumption that the executive council is given executive powers, which is unwarranted by the text of the covenant," said Mr. Taft. "The whole function of the executive council is to be the medium thru which the league members are to exchange views advisory board to consider all matters arising in the field of the league's possible action."

**GETTING READY
FOR VICTORY LOAN**

(By The Associated Press.)

CHICAGO, March 11.—"We will" chorused officials representing 16,000 financial institutions in sixteen states, when the subject of selling the victory liberty loan bonds was brought up today in the session of the central states bankers' association.

M. H. Calderwood of Eldridge, Iowa, president of the bankers' association had declared that Iowa can afford to buy its share of the victory loan because the people prospered with corn and hogs and state bank deposits alone increased \$186,000,000 since 1914.

Neville Munitions Plant Abandoned By Government

(By The Associated Press.)

WASHINGTON, March 11.—Abandonment of the Neville Island ordnance plant, planned as the largest munitions factory in the world, was announced today by the war department. Not only will construction be stopped at once, but the buildings already completed will be dismantled and the tools and machinery manufactured or nearing completion will be transferred to other government arsenals or sold. The island itself in the Ohio river near Pittsburgh will be turned back to the original owners.

Cancellation of the project is absolute. Reports that the island would be retained as the principle ordnance storage depot for the eastern part of the United States were specifically denied by the department's statement. For a few months it will be utilized for storage purpose to relieve the congestion at other depots.

Designed primarily to supply the needs of the army for the heaviest artillery the Neville Island project was pushed from the day the site was definitely selected May 14, 1918—until the signing of the armistice removed the urgent necessities for its operation. The original plans called for the production of fifteen inch rifles and 40,000 fourteen inch and 16-inch shells per month.

Construction and operation of the Neville Island project was undertaken by the United States Steel corporation "at the expense of the government and without profit," under an agreement entered into at the urgent request of the war department.

The estimates called for an expenditure of \$10,000,000. The plant will employ 20,000 men. It was to surpass in size and capacity both the Krupp works in Germany and the Creusot factories in France.

The rapidity with which the work on the plant was rushed was evidenced by the statement that one hundred and sixty-five 14-inch cannons produced there would have been on the battle front by May 1920.

The amount of money already expended or ultimate loss to the government was not stated. With the end of hostilities the need for the great plant was removed, the war department holding that the peace time needs of military establishment for ordnance could be met by the manufacturing arsenals now in operation.

**ISAC POWERS HEADS
INDEPENDENT PACKERS**

CHICAGO, March 11.—An export packing association was formed here today by more than thirty independent packing companies who propose to make a vigorous invasion of foreign markets with their meats. Headquarters will be established in New York at once and a representative will be sent to Europe to begin work. It was announced today.

Isaac Powers of the Home Packing Company of Terre Haute, Ind., was elected president of the new organization and M. Mannheim of Evansville, secretary.

The independent packers represented in the new organization include none of the large packers, not even the larger "independent" concerns, the secretary said.

Mr. Powers who began his career as an independent packer in Jacksonville, is associated with Fred Begg in the Powers-Begg Co. here.

**200 ALIEN ENEMIES
WILL BE RELEASED**

(By The Associated Press.)

SALT LAKE CITY, Utah, Mar. 11.—Approximately two hundred enemy aliens, inmates of the war prison barracks at Fort Douglas near here will be released during the next five days it was announced last night by R. M. Price of the U. S. Bureau of Investigation.

The order for the release of the enemy aliens came from the War Department at Washington today according to Mr. Price. It will affect all aliens confined at Fort Douglas who have been pronounced harmless and who have evinced a willingness to abide by the laws.

The balance of the men probably will be deported to Germany and Austria.

**LABOR CONDITIONS
SHOW IMPROVEMENT**

(By The Associated Press.)

WASHINGTON, March 11.—Improvement in unemployment conditions during the current week was reported tonight by the employment service. The decrease in the number of unemployed altho slight, was the first to be reported since the signing of the armistice.

The percentage of cities reporting heavy surpluses of labor over demand decreased during the week from 66 to 63, while cities in which supply and demand was on an equality increased from 21 to 28 per cent. The total number of unemployed was estimated by the employment service at 356,569, a decrease of 8,839 from last week.

Labor conditions were shown to be returning to normal most rapidly in the middle west.

**KEARNEY FUNERAL
THURSDAY**

St. Louis, March 11.—Funeral services for Edward F. Kearney, president of the Wabash railroad who died yesterday will be conducted in New Orleans Thursday.

Rail Heads Will Co-operate With Administration

(By The Associated Press.)

WASHINGTON, March 11.—Railroad executives meeting in separate session late today created a committee of seven, with Howard Elliott, president of the Northern Pacific, president to co-operate with the railroad administration, the war finance corporation and bankers in arranging railroad finances. Other members of the committee are: Albert R. Harris, vice-president of the New York Central; Robert S. Lovett, president of the Union Pacific; Samuel Rea, president of the Pennsylvania; Henry Ruhlender, president of the Frisco; Henry Walters, chairman of the Atlantic Coast Line and Daniel Willard, president of the Baltimore and Ohio.

Alfred R. Thom will be counsel of the special finance committee and George M. Shriver, vice president of the Baltimore and Ohio, will be in charge of the accounts. E. G. Buckland, president of the New Haven will be secretary.

"It is the sense of the conference of railroad executives," said a resolution that the railroad companies will in the present financial emergency co-operate in every practicable and reasonable way with the railroad administration in its efforts to provide for the necessities of the war. All these main subjects are in advanced stage and have been either adopted or agreed upon in principle with the exception of some reserved points on which President Wilson and the premiers are to take final action.

The military terms adopted yesterday were in the hands of the drafting experts today to be put into the form of articles of the treaty. The naval and aerial terms are agreed to except as to reservations regarding the disposal of the large German ships and the dismantling of Heligoland and the Kiel canal.

**CARRANZA AGREES
WITH U. S. AUTHORITIES**

(By The Associated Press.)

WASHINGTON, March 11.—Altho President Carranza has agreed with the American authorities to take no further action concerning foreign oil interests in Mexico until the Mexican congress could act on the new oil law introduced some weeks ago, a decree has been issued at Mexico City directing that the royalty taxes on oil produced in January and February be paid immediately. Officials here said today that this decree might result in the reopening of the whole question of the rights of the foreign companies which have been the subject of at least two notes from the American government and a vigorous protest from Great Britain, France and the Netherlands.

When President Carranza issued his first decree declaring all oil lands state property and requiring foreign companies to pay royalty taxes the American government protested energetically. The companies refused to pay the taxes on the ground that to do so would admit of government ownership of petroleum and they began actions in the Mexican courts looking to permanent relief. In the meantime protests also had been made by the other three governments.

The decision of the council to limit Germany to a volunteer twelve year old army is regarded by the Americans as likely to lead to consideration by the league of nations when it takes up the subject of the limitation of armaments of the policy of a general prohibition of conscript armies in all nations. This is in the theory that the great expense of regular long term armies will be such as to automatically keep down militarism.

**EVERY SAFETY DEPOSIT
BOX IN U. S. RENTED**

(By The Associated Press.)

CHICAGO, March 11.—To all intents and purposes every safety deposit vault in the country is rented; there is a waiting list and manufacturers of the boxes are a year behind in filling orders, it was said here today at a meeting of presidents and secretaries of the banking associations of sixteen middlewestern states.

This peculiar situation is due to two principal factors it was said, namely decrease in manufacture due to the war and the loading up of the public with liberty bonds.

**APPROVE COMPLETION OF
CAMP BENNINGTON**

Washington, March 11.—Approval has been given by the war department of the completion of Camp Bennington at Columbus, Ga., for use as a small arms training center. It was announced today that about six million dollars would be spent on the project.

TAKE OFF IMPORT LICENSES.

Washington, March 11.—Individual import and export licenses for the colonies, possessions and protectorates of Great Britain, France, Italy, Belgium and Japan will no longer be required it was announced today by the war trade board.

ROUGH OUTLINES OF PEACE TREATY ARE TAKING FORM

Main Questions Be- fore Great Powers Disposed Of

(By The Associated Press.)

PARIS, March 11.—(By The Associated Press.)—The first rough outlines of the peace treaty are beginning to take form as a result of the rapid disposal of the main questions before the council of the great powers. The preliminary draft will be well along within the present week and with the arrival of President Wilson final revision will proceed so as to have the document ready for presentation by the end of next week and thus conform to Marshal Foch's limit of March 20. The treaty promises to be a very long document, chiefly owing to detailed provisions concerning the German military system and methods for its control by the allies. It will embody however, only five or six main divisions, namely:

First, military, naval and aerial terms; second, reparations for the war damages; third, German boundaries; fourth, economic and financial provisions, and probably fifth, responsibilities for the war. All these main subjects are in advanced stage and have been either adopted or agreed upon in principle with the exception of some reserved points on which President Wilson and the premiers are to take final action.

The military terms adopted yesterday were in the hands of the drafting experts today to be put into the form of articles of the treaty. The naval and aerial terms are agreed to except as to reservations regarding the disposal of the large German ships and the dismantling of Heligoland and the Kiel canal.

Take up Boundaries.
Germany's eastern western and northern boundaries are now before the council or in the committee. The eastern and northern boundaries are to be determined Thursday. The western boundary will be settled Friday.

The consideration of reparations is set for Saturday. This covers all the principal objects of responsibility for the war. It is the desire of the French to have this made an integral of the treaty so as to settle the question.

In estimating the war losses of all the powers the first figures of one of the great powers aggregated a trillion francs, and those of another power were slightly above a hundred billion francs. This first estimates have gradually been reduced until the present aggregate is about one-fifth of the first highest estimate and in final form probably will be in the neighborhood of thirty five or forty billion dollars.

The covenant of the league of nations does not figure as a part of the peace treaty but will be treated separately altho the treaty makes frequent reference to the duties which are to be entrusted to the league.

Army Question.
The American members of the supreme council it is understood permitted the military experts to exercise their judgment regarding the proper size and character of the future German army. In order to have a basis of discussion the Americans, it is reported, suggested an army of 400,000 men, but only because that was the number mentioned in the first armistice proposal.

The decision of the council to limit Germany to a volunteer twelve year old army is regarded by the Americans as likely to lead to consideration by the league of nations when it takes up the subject of the limitation of armaments of the policy of a general prohibition of conscript armies in all nations. This is in the theory that the great expense of regular long term armies will be such as to automatically keep down militarism.

Stop Aviation Training In All Fields In U. S.

(By The Associated Press.)

WASHINGTON, March 11.—Coincident with the announcement today that Major General William E. Kinley had been replaced as director of military aeronautics of the army by Brig. Gen. William Mitchell, it was learned that orders have been issued for the cessation of aviation training at all fields in the United States except two.

These instructions take effect March 15 and thereafter the work done at other fields than the two to be selected will have to do only with the storage and maintenance of equipment. All aviation personnel that can be spared will be discharged by March 31 and the flyers maintained at the two training fields will largely be those who desire to remain in the permanent military establishment.

These orders report a new effort to keep demobilization up to a schedule and get the total of discharges to the 2,000,000 mark by the end of March. The cancelling of General Kinley's war time rank and his assignment to his own branch of the service, the field artillery, in his permanent rank of colonel, was said to be in line with this policy of reduction all along the line.

The orders also were interpreted as signaling the new status of the air service and the fact that General Menoher has actually taken hold of the entire service after devoting nearly two months to studying the situation on his return from France, where he commanded the 42nd (Rainbow) division.

The appointment of General Menoher after the resignation of John D. Ryan, former civilian director and assistant secretary in charge of aviation matters, meant that the air service was to be combined for peace purposes under a single head since the bulk of production problems ceased with the termination of hostilities. It also meant that two major general were assigned to this consolidated service and accounts in the opinion of officers for General Kinley's return to his regular army rank.

General Mitchell was an aviator before the war and virtually all his duty in the army has been in the aviation branch.

WILSON RECOVERED FROM RECENT COLD

(By The Associated Press.)

WASHINGTON, March 11.—(By Wire to The Associated Press.)—President Wilson with no trace of his recent cold, arose early today. He answered wireless messages which he had received from Paris.

The four destroyers which accompanied the George Washington from New York port company with the president's ship sailing for the Azores during the night. The fourth went today. The four destroyers from the Azores are expected to join the George Washington some time during the day. The president received a wireless from a delegation of the Cleveland Chamber of commerce proceeding to England on the Aquitania, conveying greetings and best wishes. The president is receiving unusual courtesies of the sea from passing ships. The steamer Annam hove to until the George Washington tomorrow. This salute is only to royalty. The Hallondia inquired as to the George Washington's position, the crew wishing to approach and cheer the president. But the vessels are too far apart.

The George Washington with its new high power wireless is still communicating directly with Ottercliffs, Maine.

**L. W. W. CASES BEFORE
KANSAS FEDERAL COURT**

(By The Associated Press.)

WICHITA, Kans., March 11.—Arrangements were completed tonight for the calling in federal court here tomorrow of the cases of thirty two alleged members of the Industrial Workers of the World who are accused of plotting to overthrow the United States government and institute a reign of terror similar to that prevailing in Russia. The defendants were arrested at several points in Kansas in the fall of 1917 on charges of violation of the espionage act, Sabotage, strikes and other forms of violence were to have been attempted in the oil and wheat fields of Kansas according to District Attorney Robertson.

**FORD PLANS TO MAKE
CHEAPER AUTOMOBILES**

(By The Associated Press.)

DETROIT, March 11.—Plans of Henry Ford for a new company to produce a lower priced automobile than any at present extensively marketed, contemplate employment of possibly 200,000 workers when in full operation, the motor manufacturer said today on his return from Los Angeles.

Mr. Ford stated that the new corporation will in no way interfere with the present Ford Motor company; that he had no intention of relinquishing control of the majority stock of the old company and that he was not in the market for a single share owned by other stockholders.

Mr. Ford indicated a year may be required to perfect the organization and production plans.

ANSELL REPLIES TO STATEMENTS OF GEN. CROWDER

In Controversy of Ad- ministration of Mil- itary Justice

(By The Associated Press.)

WASHINGTON, March 11.—Lieut. Col. Samuel T. Ansell, former acting judge advocate general submitted a statement of Acting Secretary Crowder today in reply to the letter of Major General Enoch J. Crowder, judge advocate general to Secretary Baker on the controversy over the administration of military justice. Because of certain references concerning him made by General Crowder, Colonel Ansell asked that his statement be given the same publicity as that of the judge advocate general.

General Ansell's statement was not made public. Soon after it was submitted Representative Gould of New York gave out copies of a letter he wrote Secretary Baker today regarding the discharge of Colonel Ansell from his war time commission as a brigadier general.

Representative Gould told the secretary he was unable to escape the conclusion that the war department had deliberately and ruthlessly adopted this method of punishing a public spirited and efficient officer whose sole offense was against a "powerful and self-centered clique in your department."

Many officers regard it as unlikely that Colonel Ansell's reply to General Crowder will be made public until Secretary Baker now on a trip of inspection of army camps has been consulted and some officers doubt that the department will even then further air controversy between General Crowder and a subordinate officer of his office. Ansell himself cannot make public his letter without rendering himself liable to disciplinary proceedings.

Crowder Going to Cuba.

Brigadier General Edward A. Kreiger designated as acting judge advocate general is due at New York Thursday on the Trans-Port America. His arrival will permit General Crowder to start for Cuba to take up the work of advising the Cuban government and government in the pending revision of the election laws and system on the island.

The scope of the investigation being conducted by General Chamberlain has not been disclosed the only information in regard to it which has yet reached the public being the brief reference in General Crowder's recent letter. It also is the duty of the inspector general to make general investigations on questions referred to him and General Crowder's language might mean that facts as to criticisms brought against the military justice system charge undue severity are to be marshalled for Secretary Baker's information rather than that the conduct of any individual officer or officers is to be examined.

**WILL IMPROVE
POSTAL SERVICE**

WASHINGTON, March 11.—Improvement in the postal service has been promised by Assistant Postmaster General Koons in a letter addressed to the nearly 15,000 business men who at the request of the post office department recently submitted suggestions for the improvement of the service and curtailed train have been issued to postmasters and employees. Mrs. Koons said with a view to removing the causes of complaint.

Analyzing the complaints, Mr. Koons said the largest number were in regard to lack of train service and curtailed train schedules. This cause, he said, would be removed as the railroads recovered from the strain imposed by the war.

THE PRIMARY ELECTION

The "people spoke" in a very definite way yesterday and E. E. Crabtree was declared the Republican nominee for mayor by a very decisive majority over his opponent, W. L. Alexander. J. A. Bellatti was named candidate for city attorney also by a handsome majority and the votes for aldermen in three of the four wards indicated the general approval of the "dollar a year" service plan which had been suggested at this time because of the unusual conditions which confront the city.

The candidacy of Mr. Crabtree presented some altogether new conditions in political affairs. It was in truth an instance of the "office seeking the man" and he became a candidate only after the insistent requests of a large number of people. When his consent was finally given it was with the understanding that if the people who urged his candidacy were sincere they must proceed to secure his nomination.

Exactly that thing was done. Mr. Crabtree left the campaign management entirely to his friends. He rightly felt that since he had consented to serve the city as mayor without salary and to devote his best thought "for the good of Jacksonville," that he could not consistently urge the people to accept his offer—that if

he was wanted the people would elect him on election day. Advocates of the plan proceeded with an organization of both men and women but not nearly so definite an organization as has been used in elections in times past. Some work was done in every precinct. All the automobiles and conveyances needed for the transportation of voters were available. But without genuine interest on the part of the people and their thoro approval of "the dollar a year" plan and its attendant spirit there would have been no such vote as that recorded for Mr. Crabtree.

In addition to approval of the plan the decisive majority would have lacking had it not been for the known character and worth of Mr. Crabtree and his personal popularity. Mr. Crabtree's connection with Jacksonville affairs thru a period of years and his special activities in various lines of war work have brought him into close touch with people in every precinct in the city, and he has a popularity not of a transient kind.

In the very few public utterances on campaign issues Mr. Crabtree laid special stress upon his intention, if elected to take all public and city affairs before the people in an open and frank way and he can be depended upon to carry this policy sincerely into effect.

It is known that Mr. Crabtree's candidacy together with the idea of service that it represents, has the strong approval of a great many Democrats and while they realized they could not support him in the primary many Democrats urged him to become a candidate.

The Republican party candidate for attorney, Mr. Bellatti, will come before the people with the definite approval of the primary election. He did not seek the nomination—in fact, frequently expressed the hope that he would not be given a majority. The platform on which he was a candidate and his recognized ability made him easily first.

R. L. Pratt is the candidate for city clerk on the Democratic ticket, and had no opposition on the Republican ticket, largely

owing to the fact of the excellent record that he has made in the office of city clerk by appointment during the past eight years.

H. C. Clement, Republican candidate for treasurer, is also on the dollar a year platform and the large vote he received is complimentary recognition of his ability to fill the office in a satisfactory way.

W. L. Alexander defeated candidate for mayor, knows the political game well and is one of the most successful business men of the city.

A number of competent men were defeated in the aldermanic race but men and women of the party can enter the coming election with the full knowledge that they have named candidates who merit their support and who will prove faithful and efficient public servants if elected. The ticket as a whole is one which will no doubt draw a great deal of support also from the Democratic party.

STATE STREET MISSIONARY SOCIETY

The Woman's Missionary Society of State Street Church met at the home of the president, Mrs. Mary T. Carriel, 1152 West College avenue Tuesday afternoon at 3 o'clock. Mrs. Swales led the devotion. The topic for the afternoon was "Japan." The paper was prepared by Miss Carrie Dunlap, the subject being presented in a very interesting and instructive manner. Mrs. Carriel followed with an article on "The Outlook in Japan in 1918 and 1919." Mrs. Laning spoke of the work as a missionary in Japan of the late Miss Mamie Melton, a Jacksonville girl. Mrs. Pierson and Mrs. Mary Dunlap spoke in the interest of the New Era Movement.

Following the program a social hour was enjoyed.

Mr. and Mrs. E. E. Crabtree will leave this morning for St. Louis. Mrs. Crabtree will proceed to Camp Beauregard at Alexandria, La., to visit Miss Mary Wadsworth, who is at the hostess houses there. He will work at the camp as a missionary in Japan.

Mr. Crabtree and Miss Wadsworth will then go to New Orleans. Mr. Crabtree will be in conference with liberty loan organization workers in St. Louis and probably return tomorrow.

Mrs. F. G. Bufile and children are in the city from Kansas City for a visit at the home of O. F. Bufile on West Lafayette avenue. Mrs. Bufile and children will spend a number of weeks in the city while Mr. Bufile is away on a business trip to New York.

MUST STAMP OUT REDS

New York, March 11.—Agitation for the Bolshevik and other radical organizations have turned to their advantage the uplift, had among certain New York society women, Francis S. Bangs, a New York lawyer told the women's Republican club here today. He urged women to lend their influence which he said was great, "either for good or evil to offsetting the Bolshevik program."

MRS. HEINL MAKES RED CROSS REPORT

Report Presented at Meeting of Executive Committee—Routine Business Transacted.

At a meeting of the executive committee of the Morgan county Red Cross held at the public library Tuesday evening Mrs. F. J. Heinl made her report as cashier of the Red Cross Roll call for the Morgan county chapter beginning January 20.

Aside from the report of Mrs. Heinl only routine business was transacted. The report follows:

Cashier's Report.
The report of Mrs. F. J. Heinl as cashier of the Red Cross roll call for the Morgan county chapter which began Jan. 20, showed total amount collected \$9,019.50. These collections were from a total annual membership of \$850 at \$1 each, 74 subscribing members at \$2 each and 3 contributing members at \$5 each. Of the subscribing members 45 are in Jacksonville or in precincts not having branches; 11 belong to the Alexander branch; three to the Concord branch; one to the Lynnville branch; eight the Waverly branch and six the Woodson branch.

The three contributing members who pay \$5 each annually are members of the Jacksonville branch. The annual members enrolled are as follows: Jacksonville and precincts without branches.....5,704

Alexander branch.....357
Chapman branch.....293
Concord branch.....233
Franklin branch.....393
Lynnville branch.....160
Litterberry branch.....185
Meredosia branch.....148
Murrayville branch.....136
Waverly branch.....748
Woodson branch.....217

Total.....\$8,860

As indicated above, the receipts on the subscribing and contributing memberships increased this amount of \$8,860 to a total of \$9,019.50. Mrs. Heinl's report as cashier indicates that payment of the above sum has been made to Mrs. Lillian W. King and secretary of the Morgan county chapter. The report of Mrs. Heinl was addressed to M. F. Dunlap as chairman of the Morgan county chapter.

RELEASED FROM SERVICE

Lieut. Harry McLaughlin is now in the city for a visit with friends and relatives, having recently been discharged from the army service at Camp Knox, an artillery encampment located about 25 miles from Camp Taylor. Lieut. McLaughlin was one of the first Jacksonville young men to enlist in the service, going into the cavalry and being assigned to duty at a western post. He subsequently was transferred to the artillery and made an excellent record in an officers' training camp, thus receiving his commission. He made various strenuous efforts to secure assignment which would take him into overseas service but received his honorable discharge after twenty two months of service, during which he was never able to get the opportunity to leave the U. S. soil.

This was a severe disappointment to Lieut. McLaughlin but like other good soldiers he could do nothing but make the best of it.

RETURNS TO GREAT LAKES STATION

Lieut. A. B. Applebee will return today to Great Lakes Naval Station, as he has received a notice which ended the ten day furlough previously granted. Lieut. Applebee is now expecting early release from the navy service.

FUNERAL NOTICE

The funeral of the late Mrs. Anna Johnson will be held from the Reynolds undertaking rooms this afternoon at 2:30 o'clock, in charge of Rev. G. W. Raudle. Interment will be made in Diamond Grove cemetery. The service was originally a nounced for another hour.

RETURNS FROM OVERSEAS

Harry Coons, who has just received his discharge from Camp Funston, has returned to Jacksonville, following two years of service overseas. He was severely gassed in one engagement and his condition is still such that he needed a physician's care shortly after his arrival at home.

WINCHESTER

Winchester, March 11.—Mrs. Albert Hamilton and two little daughters returned Tuesday to their home in Beardsdown after a short visit with relatives. Our county jail has been undergoing a complete renovation, which has been very much needed for some time.

J. B. Thompson is moving his grocery stock from the building on Cherry street to the Hurd building north of the court house, formerly occupied by R. S. Dill. Miss Bertha Miner left Tuesday night for a few days' visit in Springfield and Jacksonville.

George Yeim left Tuesday for Jacksonville on a business visit. Robert Doyle and family moved Tuesday to a farm near Manchester.

Orian Woodson of Bluffs was a business visitor here today.

Mrs. Albert Coultas and niece, Miss Besse Doyle, left today for Jacksonville.

Mrs. Mary McGuire and son Bernard left Monday for Springfield to visit Mrs. McGuire's daughter, Miss Janette, who submitted to a serious operation at Dr. Day's hospital Tuesday.

Social Events

Queen Esthers

Held Meeting.
The Queen Esther Society of the Centenary church met Tuesday evening at the parsonage, Ruth Wilkinson and Florence Bentley, hostesses. The meeting was led by Eunice Haerle, devotionals by Garneda Phelps. A reading was given by Helen Ferreira. Light refreshments were served.

Miss Ruth Waggoner

Entertains.
At her home on Prospect street Miss Ruth Waggoner gave a six o'clock dinner Monday to a number of friends. A superb feast was enjoyed by the fortunate guests and a pleasant time followed.

FUNERALS

Taylor.
Funeral services for Richard Taylor were held from the residence 1314 Tendick street at 2:30 o'clock Tuesday afternoon in charge of the Rev. J. H. Fisher pastor of Bethel A. M. E. church. The members of the colored Masonic lodge attended the funeral in a body and carried out the funeral ritual of the order at the house. The flowers were cared for by Mrs. Pitts and Mrs. Francis Johnson. Burial was in Jacksonville cemetery the bearers being Benjamin Sallee, August Taylor, Richard Lewis, William Wright, Leslie Turner and John Yates.

PYTHIANS WILL GO TO ROODHOUSE

Local nights of Pythias have accepted an invitation from Worchester Lodge No. 113 of Roodhouse to visit the lodge next Friday night and confer the Rank of Knight on a number of candidates.

Worchester Lodge will have an afternoon and night session and it is expected that a large number will go from here on the afternoon train, returning on the Hummer Saturday morning. A picked team from Jacksonville Lodge No. 152 and Favorita Lodge No. 378 will confer the rank.

On Thursday evening Favorite Lodge will have a school of instruction for members who were unable to attend the school on the occasion of the three days' session.

ON ARKANSAS TRIP

Lieut. A. F. Ewert has gone to Arkansas to address a number of group bankers meetings under the auspices of the Bankers association of that state. He was at Texarkana yesterday, will be in Pine Bluff today, Fayetteville tomorrow, Conway on the 19th and Newport on the 20th. These meetings are held at this time somewhat preparatory to the fifty liberty loan drive.

WILL ENGAGE IN OVERSEAS WORK

Miss Margaret K. Moore Soon to Sail for Europe—Appointment Comes as Result of Successful Work at Camp Funston.

Miss Margaret King Moore will come to Jacksonville within a few days for a visit with her parents, Mr. and Mrs. Ensley Moore, before leaving for overseas service with the Y. W. C. A. Miss Moore has been in the work for the past six months, located at the hostess house at Camp Funston. When she first entered upon her work there she was assistant hostess and several months since was advanced to the post of chief hostess, thus having the full responsibility for Y. W. C. A. work at Camp Funston where activities have continued on a large scale during the period of demobilization. The appointment for overseas service came in recognition of the successful work that Miss Moore has done in the western camp and also because of her special qualifications.

Prior to the war period Miss Moore traveled extensively in Europe and she has for a number of years been an instructor in the French, German and Latin languages. After graduating from the Jacksonville Female Academy here Miss Moore became a student at Smith College and graduated there. Afterward she was a member of the faculty of Blackburn university, then at Macalester, St. Paul, Minn., and subsequently was dean of women at Westminster college at Salt Lake City. In the last mentioned institution Miss Moore's work was especially appreciated and she continued there for more than a year after she had resigned, according to the request of the trustees to serve until a satisfactory successor could be chosen.

In addition to qualifications for the work thru training and education, Miss Moore has a tactfulness which is especially helpful in the work in which she is engaged. Her appointment is, as indicated, a recognition of her special fitness for the overseas work.

The Chain of Satisfaction

My customers ask me why I bother to sell equipment and accessories, when I have such a good business selling cars.

Frankly, it's because I think so much of the HUDSON and Essex car, that I sell good things to go with them, so that owners may be perfectly satisfied with their car and help my business grow.

This is a good time now to Re-tire and get your car in first class shape as spring is here.

I carry a full line of accessories to repair or re-finish your car. Take care of your battery, repair it, and put it in first class order.

Why not buy your full season supply of oil? I handle the well known Mobioil, in 1 gal., 5 gal., 15 gal., 1/2 barrel, and full barrels.

If you have been using Veedol, I can save you money on this while my supply lasts.

I carry several well known makes of casings and tubes. Let me fix you up on your next tires.

REMARKABLE STATE INSTITUTION COWS

The State Department of Public Welfare during the past year has made some remarkable progress in the way of improving dairy conditions at the State Institutions. An independent testing association has been making tests to determine the cows that were being maintained at a profit to the institution which resulted in the discovery of some remarkable Holstein cows in the herds. At the Jacksonville State Hospital and the Illinois School for the Deaf these tests have been regularly made for more than a year. Certified records of the cow testing association showing the wonderful records of these cows are on file with the Welfare Department. The best cow, No. 46, belongs to the Illinois School for the Deaf. In January she produced over 63 pounds of butterfat and in February over 56 pounds. Her milk contained 4.8 per cent butterfat for January and for February 4.6 per cent.

The other cow, No. 66, is the property of the Jacksonville State Hospital. In one year she produced 12,167 pounds of milk with an average test of 3.2 per cent and 423 pounds of butterfat.

The herd of cows belonging to the Illinois School for the Deaf consists of 37 cows and they are producing over 150 gallons of milk per day. In January there were 11 cows that produced over 40 pounds of butterfat with an average of nearly 50 pounds. This herd is now producing 50 gallons a day more than it was one year ago.

The Jacksonville State Hospital is now milking 75 cows with a daily production of 1,600 pounds which is more than they were securing from 100 cows last year.

WHY TIRED PALE, RUN-DOWN WOMEN SHOULD TAKE NUXATED IRON

You can tell the women with plenty of iron in their blood—beautiful, healthy, rosy-cheeked women full of life, energy and cheer—while those who lack iron are pale, nervous, weak, irritable, tired-out creatures, whom nobody likes to have around.

In explaining why tired, pale, run-down women should take a short course of Nuxated Iron, Dr. James C. Sullivan, formerly physician of Bellevue Hospital, Out-door Dept., New York, and Westchester County Hospital, says: "Iron is absolutely necessary to enable the blood to change food into living tissue. Without iron, no matter what of how much you eat, your food merely passes through your body without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking—your nerves get on edge, and your whole system is upset. Nuxated Iron, in some cases, mental, physical or nervous collapse."

"Nuxated Iron—scientific and widely condensed preparation of organic iron, and other tonic ingredients—enriches the blood and creates new blood cells, thereby strengthening the nerves, rebuilding the weakened tissues and helping to install renewed energy and endurance into the system, whether the patient be young or old."

"For staminate women who would be stronger and more energetic with steady nerves and rosy cheeks, Nuxated Iron is, in my opinion, the most valuable preparation any physician can recommend."

MAYORS OF JACKSONVILLE.

(Contributed.)
The city government of Jacksonville was initiated in 1867. John Mathers was elected first mayor. Mr. Mathers was of Irish birth; was a prominent Methodist, a strong prohibitionist; elected as a Republican.
"68 William P. Barr was the second mayor; elected as a Republican.
"69 John Mathers was again elected, running as Republican prohibitionist.
"70 William Bronson was a Kentuckian; elected as a Republican; he was a cabinet maker by trade.
"71 William Ratekitt, was elected as a Republican; he was a Kentuckian a brick mason by trade; a member of the Christian church. He was a very fine man. After being mayor he served as superintendent of water works.
"72 Mayor George M. McConnell was elected as a Republican, and was very efficient in helping to establish the water works. He served during the war as a paymaster in the army, handling millions of dollars. Latterly he was cashier of the Jacksonville National bank and went to Chicago in 1874 as an editor of the Saturday Evening Herald. He went from that into critical work on the various papers, serving in that capacity for many years. He now resides in Fairhope, Ala.
"73 Matthew Stacy, elected as a Republican; was a Pennsylvanian by birth, a Methodist by profession and a harness maker by trade. He had held many local offices.
"74 Joseph O. King was elected on the Citizens' ticket; he was prominent in the gas business and in getting water.
"75 Wesley Mathers was elected on the Temperance ticket; was Irish by birth, a Methodist by profession and a hardware dealer in trade.
"76 Edward S. Greenleaf was elected as a Republican; he was then connected with the J. S. E. railway.
"77 Mr. Greenleaf was re-elected.
"78 S. Henry Thompson was elected as a Temperance Democrat; he was a Methodist by profession, a bricklayer by practice.
"79 Dr. H. C. Stewart was elected as a Republican; he was prominent as a member of the Christian church.
"80 John R. Loar was elected as a Republican; he was a Christian in church matters; a capable mayor.
"81 Mr. Loar re-elected.
"82 Charles Widmayer elected as a Democrat; he was a butcher in trade, a German by birth.
"83 Edward S. Greenleaf was again elected.
"84 Joseph Tomlinson became mayor as Republican; he was a fine man in appearance a member of the Methodist church.
"85 John Hopper was elected as Republican; Mr. Hopper was English by birth, and in the butcher business. He died in office. He was a pleasant man and had many friends.
"86 William D. Mathers became mayor on the Republican ticket; he was probably the youngest man that ever served in the office. He is still around "fat and saucy."
"87-89 Dr. James P. Willard won as Republican and was a good mayor. He soon afterwards went west and while of considerable age, still lives in Denver, Col. Dr. Willard was a Methodist. Dr. Willard came in under the new city charter.
"89-91 James T. King was elected as a Republican and made one of the most efficient mayors we have had.
"91-93 Thomas S. Knoles was elected as a Democrat. He was in the livestock business.
"93-95 Henry Shoensfield, a newcomer, won as a Republican and served his time. He soon departed for other fields of action.
"95-97 Charles Widmayer was re-elected.

W. W. Young of Litterberry was down to the city yesterday.

GERMAN PAPERS
OPPOSE LEAGUE

WASHINGTON, March 11.—General opposition to the proposed league of nations is reflected in recent German newspapers. Comment received by the state department and made public today. Two of the deputies declare the league as proposed would establish "Anglo-American world domination" while another characterizes it as a "league of arms against Germany."

The Vorwarts asserts that the league is a "league of victors with character of trust despite the welcome establishment of the principal of arbitration, and the treaty is preceded with a capitalistic spirit."

The Tagliche Rundschau says that the "league simply establishes Anglo-American world domination France, Japan and Italy being permitted to assist neutrals."

The Germans according to the Tageblatt now learn that in the league of nations statutes "established at Paris no attention appears to have been paid to Germany. The league is a draft not of a league of nations but a league of arms against Germany."

The Leipzig Tageblatt says "it is our misfortune we are in a disadvantageous position regarding power but that should not deter us from approving the erection of a league. Our existence as national and economic body is at stake."

The Vossische Zeitung terms the treaty a great disappointment; merely an instrument to maintain the supremacy of England and America.

DAY TAKEN UP IN

ARGUMENTS
New York, March 11.—The greater part of today's session of the trial of Jeremiah O'Leary for alleged seditious writings were taken up with arguments of counsel over attempt of the prosecution to introduce testimony in rebuttal. After obtaining rulings by Judge Hand against the appearance of three of the government's witnesses, O'Leary declared "the government has been beaten and wants to begin the case all over again."

FIRE CAUSES PANIC
IN CHICAGO HOTEL

CHICAGO, March 11.—Half a dozen women fainted, as many others were overcome by smoke and these with nearly 225 men and women, employees of the Morrison hotel were aided down fire escapes, early today, when fire broke out in a five story brick annex to the hotel which is used as a dormitory for the employees. The employees occupying the annex were for the most part women—maids, laundry girls and a few house men. Those overcome by smoke were carried into the hotel drug store and were soon revived.

All guests of the big hotel located at the southeast corner of Clark and Madison streets aroused and notified to leave the structure as a precautionary measure. The fire did not reach the hotel proper, being confined to the annex on the Clark street side. The fourth and fifth floors were burned before the blaze was brought under control. The damage was estimated at \$50,000.

There were fifteen hundred guests in the hotel of which about 500 left the building.

A report that two maids were missing led to a search of the burned annex as soon as firemen could enter the structure. No bodies were found.

VOTE AGAINST CIGARETTES

Lincoln, Neb., March 11.—By voting to postpone indefinitely a house bill to license tobacco dealers to sell cigarettes in Nebraska the senate of the state legislature today went on record as favoring the present law which makes cigarette sales unlawful.

DISPOSE OF LARGE ESTATE

New York, March 11.—The will of Dr. Thomas Addis Emmett, grand nephew of Robert Emmett, the Irish patriot, which was filed in the surrogate's court today, disposes of an estate valued at \$1,600,000. The bulk of the estate is divided among his three children and his granddaughter, Miss Margaret Harris of this city, with whom he lived.

MANY WANT TO ATTEND
LODGE-LOWELL DEBATE

BOSTON, March 11.—Applications for tickets of admission to symphony hall the evening of March 19 when Senator Henry Cabot Lodge and President A. Lawrence Lowell of Harvard University will discuss the proposed league of nations, poured in upon the committee on arrangements today. Before any plans for a distribution of admissions had been worked out requests had been made for the greater part of the 2500 seats available.

The affair will have the character of a discussion of wide latitude instead of a debate on a precisely worded question.

Neither will be bound by the usual rules of debate. It is planned that Senator Lodge will speak twice and Dr. Lowell once, but each accompanying the same time. Senator Lodge will open the discussion speaking for an hour. Dr. Lowell will then take an hour and a half to state his case in support of the substance of the covenant championed by President Wilson and to reply to the arguments of his opponent. Senator Lodge will then have another half hour in which to reply.

HERZOG REFUSES TO SIGN.

New York, March 11.—President Grant of the Boston National League club met Charles Herzog here today. Herzog has a contract with the Boston club which calls for a salary of \$10,000 for the season of 1919.

Grant said he had made what he considered a flattering offer to the player, which Herzog refused to accept. Herzog stated that Grant wanted to cut the salary of \$10,000 and he would not consent.

The primary election in Jacksonville yesterday resulted in a spirited contest on the Republican ticket, while only in the first ward was there any activity among Democrats. The summarized figures which appear elsewhere indicate that E. E. Crabtree, candidate for mayor on the Republican ticket, defeated W. L. Alexander by a heavy majority, 1903. Mr. Crabtree carried every one of the sixteen precincts in the city, by both the vote of men and women. Charles R. Knolesberg is the Democratic nominee without opposition.

The polls opened at 6 o'clock a. m. and by 1 o'clock the vote registered was not sufficient to indicate that the full party strength would be polled. However, women were very active during the afternoon hours and before five o'clock came a goodly representation of both men and women voters appeared in every precinct of the city.

As indicated, there were no contests on the Democratic ticket except in the first ward, where Michael McGinnis and John Flynn were the party nominees. The successful candidates were closely followed by Charles Blesse and Edward Brennan. Mr. McGinnis is not new to first ward politics as he was in the council for eight years. Mr. Flynn has for a long period served as a section foreman for the Chicago and Alton and is a well known resident of the ward. Friends of Mr. Blesse and Mr. Brennan regretting that they did not show just a little more strength. Mr. McGinnis and Mr. Flynn were both running on a salary platform and Mr. Brennan had indicated his willingness to serve on the dollar a year plan.

In the second ward A. E. Williamson and C. B. Graff are on the "dollar a year platform" and the same is true with George Moore and John D. Cain, third ward; T. A. Chapin and Charles E. Ehnle in the fourth ward. John W. Baptist and Herbert White are the Republican candidates in the first ward; H. E. Frye, Democratic candidate in the second ward; Edward Lonergan and Alexander Platt in the third ward and James M. Hurst in the fourth ward had no opposition.

The same statement applied to H. C. Clement, Republican candidate for city treasurer, and R. L. Pyatt, Democratic candidate for city clerk. The returns on the candidate for city attorney were also watched with special interest. Mr. Bellatti, who had indicated a willingness to serve on the dollar a year platform, received 1,606 votes, to the 645 cast for F. L. Gregory and the 449 for J. Marshall Miller. None of the candidates for attorney made a campaign to secure support. Mr. Bellatti asked no one to vote for him. Mr. Gregory was content with a formal announcement and Mr. Miller used only one announcement in each of the daily papers.

Altogether the "dollar a year" platform made some unusual conditions and alignments and the election was properly accounted one of the most interesting held in years. Those somewhat familiar with political affairs had counted that the "silent vote" could not be safely estimated in advance, and this proved to be true, especially with the candidates for mayor and attorney. The detailed vote by precincts appears elsewhere in this issue.

A canvass of the election returns, it is understood, will take place in the course of the next two or three days in accordance with law. The mayor, city attorney and city clerk are charged with this duty.

SCATTERING RETURNS

IN PRIMARY ELECTION
A number of scattering votes were recorded in the various precincts as follows:
In No. 4 of the Republican ticket M. L. Hildreth received two

votes for city clerk; R. L. Pyatt 27 and Mr. Dye one vote for the same office.

In No. 5 D. R. Slater was given two votes for city clerk on the Republican ticket, and T. J. Hargrove received a vote for city attorney on the Democratic ticket in the same precinct.

In No. 6 George W. Davis was given two votes for city clerk and M. L. Hildreth one vote for the same office on the Republican ticket.

In No. 8 C. A. Boruff received one vote on the Democratic ticket for treasurer; P. J. White one vote for alderman; M. L. Hildreth, O. W. Davis and R. L. Pyatt one vote each for city clerk.

No. 13 gave M. L. Hildreth six votes for clerk on the Republican ticket and D. R. Slater nine votes for the same office.

T. J. Hargrove was given six votes for city attorney and Myrtle Tandy a vote for city treasurer.

No. 14 gave D. R. Slater five votes for city clerk on the Republican ticket, and M. L. Hildreth one vote for clerk and one vote for alderman on the same ticket.

In the Fourth ward J. W. Hubble and E. P. Brockhouse each received one vote for Democratic alderman.

South Jacksonville Primary

South Jacksonville held a primary Tuesday for the purpose of nominating a candidate for mayor and three candidates for trustees to be voted on at the April election. A total of 22 votes was cast.

L. O. Berryman, the present incumbent, was again nominated for president, receiving 21 votes. W. B. McIntire received one vote. For trustees O. B. Hehl, W. H. Hembrough and W. L. Crabtree were also cast for Samuel Perry and William Helfer.

Tho no one has ever qualified for the office of police magistrate R. R. Coultas and W. B. McIntire were voted upon by the voters. McIntire received 14 votes and Coultas 5.

Primary at Mercedosia.

A primary was held at Mercedosia for the purpose of nominating candidates for village officers for the April election. Two tickets were in the field, the Progressives and Citizens Tickets. The following were nominated:

Progressive—Mayor, Ray Wade; clerk, Margaret Cody; trustees, Levi Hodges, James McLain, Robert Mayes.

Citizens—Mayor, Louis Berger; clerk, H. D. Berger; trustees, George Hyde, B. C. Heffner and T. B. Dudhope.

Waverly Primary.

Waverly, Ill., March 11.—At Waverly both the Democrats and Republicans nominated full tickets at the primary today. The nominees are as follows:

Democratic Ticket.
Mayor—W. H. Rohrer.
City clerk—Fred Ashbaugh.
Treasurer—J. L. Adcock.

City attorney—Clarence Bryan. Aldermen—First ward, Fred Deenage; Second ward, Louis Seals; Third ward, Newton Baldwin.

Republican Ticket.
Mayor—W. R. Turnbull.
City clerk—C. F. Allen.
Treasurer—C. L. Gates.

City attorney—C. F. Wemple. Aldermen—First ward, Frank Reesor; Second ward, W. L. Hortsman; Third ward, Vernon Keplinger.

PRIMARY ELECTION

AT FRANKLIN
A primary election was held in Franklin Tuesday when tickets for president and trustee were put in the field by Democratic and Independent parties. There were 102 men's votes on the Democratic ticket and 33 women's votes. On the Independent ticket there were 12 men's votes and two women's votes. The nominations on the Democratic ticket were:

President—C. W. Criswell. Trustees—Edward Seymour, Fred Burch and F. A. Sturgis. On the Independent ticket: President—Scott Tranbarger. Trustees—Fred Burch, Charles McLamar, Newton Woods.

The vote was generally light.

TAKES COMMAND AT GRANT.

Camp Grant, Ill., March 11.—Brigadier General Charles Gerhardt who commanded at various times the Third, Thirty-fifth and Ninety-second divisions in France arrived at camp Grant today to take command of the 161st depot brigade succeeding Col. Joseph McNames.

WILLIAM J. BRYAN
ENDORSES LEAGUE
OF NATIONS PLAN

(Continued from Page 1)

It has so small a voice to carry it into war against its will.

Takes Up Boycott.

"The constitution of the league would seem to imply the right of the council to compel the declaration of an economic boycott by the members of the league. This is not quite so serious as the declaration of war but economic boycott is likely to develop into a war and may be peculiarly advantageous to the nations that want to declare it. Our interests may not be identical in this respect and we ought to have a right to say at the time whether we would declare such a boycott."

"I venture to suggest that the scope of the league's work might well be extended beyond what is now contemplated. A substitute for war must be able to deal with every situation that can become a cause of war. One of the most fruitful causes of war has been the necessity for expansion. Growing nations feeling the necessity for more room have often gone to war on some clumsy pretext when the real purpose has been to secure territory for an increasing population."

"So if the league of nations is to substitute reason for war it must be able to deal with claims that are made for the waste places of the earth. A nation feeling a need for more territory should be able to go before the league and present its claims. The council should consider the claim and advise it and the force of public opinion should be used to secure such an adjustment of inequities as would afford a peaceable means of securing needed territory."

"While we should endeavor to make the league as near perfect as possible we should not allow its imperfections to lead to its rejection. We must take risks not matter whether we accept the league or reject it. The risks that we take in accepting it are less than the risk we take if we reject it and turn back to the old ways of blood and slaughter."

DRY VOTE RESCINDED

Duluth, March 11.—Oliver, Duluth's oasis, located in Wisconsin, across from New Duluth, opened its liquor houses yesterday evening, with the official information that the dry zone order which put it into the "dry" column last August had been rescinded. Eighteen visitors to the village were arrested when they walked in to Minnesota last night.

TAX RULING.

Chicago, March 11.—An important extension of the exemption provisions of the income tax law is contained in a ruling by Commissioner Roper made public here today. It is that the exemption for wife or children covers the whole year 1918 even if the wife were wed or the child born on the last day of the year.

The New Water Works Plan.

Are we for it? We are, especially the lake! We used to live near a real lake and have been more or less homesick for it every since. We moved away. When we used to feel a little blue we have gone out to Morgan Lake, and once tried a boat ride, but got so dizzy going around in a circle had to go ashore.

One afternoon during the bathing season we went out and sat on the bank and every time a fat person went in we had to move back, yet that lake looked good to us, even when it was dry.

When we get that big new lake, the people of Jacksonville would not be willing to do without it for five times the cost. Besides supplying the city with good, pure water, it will, and should, be a city play ground. It will get you away from the worries of home and business and make you think of other things than money and work.

Every one should play, and the man or woman who does not is usually a disagreeable person.

To the man or woman who never has time to play, I would suggest that you stop long enough to think this over—No matter how busy you are, how rich you are, how poor you are, how good you are, how bad you are, or how important you think you are, you will some day take that long journey from whence no traveler ever returns, the world will move on just the same, and with the exception of your nearest relatives you will never be missed.

Yours truly, JACK.

ELCOMB INQUIRY
INTO LONDON RIOTS

LONDON, March 11.—The Daily News referring to the riot in London on Sunday says: "The decision to hold an inquiry has been put in hand, very much to be welcomed. It may be said since regrettable prominence has been given the American soldiers in particular in some of the early acts of the disturbance, that behavior of the American troops since the day they were welcomed to London has been exemplary, not merely in an ordinary, but to a conspicuous degree. Unless and until the men are condemned by a court of inquiry public opinion here will be content to withhold its condemnation. In any case the whole affair was distinctly less serious than at first appeared."

The company pressed them into service, they declared to take the places of men who struck that day.

THREATS AGAINST
RULING CLASSES.

Charleston, W. Va., March 11.—Threats of armed resistance against the ruling classes of this state contained in resolutions adopted by miners' unions of Districts 17 and 29 were read into the senate journal at the first day of the extra session of the state legislature convened today for the purpose of enacting of a state patrol law. The resolution menaces the governor and legislature if the bill becomes a law and the miners have vowed on record as saying they would not hesitate for a moment to take up arms and resist enforcement of the red flag bill.

RESTRICT PERSONNEL

WITH THE COLORS

From Leonard Bento

U. S. S. Ohio, Feb. 6th, 1919

Mrs. Thos. Bento,
North Fayette Street,
Dear Mother and All:
Just thought I would drop you a few lines as I did not have very much to do right now, only we are in heavy seas and the swells are as large as Ayers bank. Oh, some sea, they are. We have a long way to go yet. Just before we got under way we were coaling and there we got knocked over. One of them got killed and the others all banged up. They were just a short ways from where I was. We had a hard time getting them as the river was full of ice, but we got them all and one of the boys in my division got killed. Well Ma, about the 20th day of Feb. I think I will be in Paris writing you if I get the chance to take a run down there. Paris is only 70 miles from Brest. That is the port we make in France. Then coming back we stop at Hampton, England for a little coal and the Azores Islands for some things. Quite a trip. I hope you are all well. I am fine. Tell Warren hello and Pa and Grandma and Nan and all. I am just about 7,000 miles from old Jacksonville so I think I will say goodbye. With love to you all.
Your son,
Leonard.

U. S. S. Ohio, Feb. 9, 1919.

Mrs. Thos. Bento,
North Fayette Street,
Dear Mother and All:
I am fine and dandy and hope you and all are the same. I am writing this right at mid sea. We have 1500 miles to go yet. You see where we are going it is 3100 miles to the states and believe me she sure has got some roll. Right now she is taking water over a boat's deck that is about as high as they go. Say Ma, she sure is some, to make it short, but I guess I am as salty as the next one (our saying). When she rolls, roll with her and laugh. And say, yesterday we were all eating and one big wave hit us and I wish you could have seen the mess tables going. Turned them all upside down but we all stayed up good. I have seen very few seasick. I go on watch on the bridge at 8 bells tonight. My station is lookout forward and left to right up where the old man is and I got all night in and buns for breakfast; that is another one of our sayings. And say, yesterday I got a little bit scared to tell the truth. We got just a heavy sea roll. I thought we were not coming back but the old girl is a regular sailor now and come back without a scratch. Well Ma, this is Sunday and we have to be there by one more week. We have to go across the Bay of Biscay. They say it is some place. That is on our way back. We stop at the Azores Islands. Tell little Warren to think of old Len some night on a 12 to 4 a. m. watch standing up there in the cold and snow. I sure has been some bad weather. Of course we have it calm some time. You see, Ma, it does not cost a cent to send letters out here or in France. Of course all our mail will be put on another ship as soon as we get in port and sent right back, but we do not get any until we get back to the States which will be some time in March. I think we will be on our way in March anyway. Do they have the shipping bill in the papers? Then if they do you watch them in March about the 7th or from there on and see when we arrive. Yes, and tell little Warren I will get him something in France and England too if it is possible which I think it will be and of course I could not forget dear mother and dad. If I get a chance to get anything I will. So Ma I think this is a bit for today. I will write you again before we get over. So, I am as ever, with love, and love to all, your son
Leonard.

SERGEAN PYLES
WRITES HOME.

Feb. 13, 1919.

My Dear Mrs. Clark:
I received your most welcome letter a few days ago, glad as you know yet somewhat surprised to hear from you. This leaves me just as happy as a boy can be a long long way from home and I hope this will find you the same.

Well Mrs. Clark I will only be to glad to take dinner with you and tell you all I know of France, that may not be a great deal, but I think it will be news anyway.

How is Clarence, you tell him that he has sure missed a lot by not being in the army as it make a good man out of a bad one and a better man of a good one so you see there is something to gain. You never know just how much to appreciate a home and friends until you are in the army and a long way from home, and I have seen parts of the world that I would have never seen otherwise. After all being a soldier is not as bad as it sounds.

Well I don't know just when I will be home, but I think I will come in with the birds and flowers of spring. I hope to anyway. Best regards to Mr. Clark and all the family. How is Opal you did not mention her in your letter. Where is Tom is he in the army or not. Give him my best regards.

Well I have lots of work so I will close. Will write again soon. Best wishes and thanking you in advance for the good dinner. I am as ever a friend.

HAROLD WELLS
WRITES FOLKS.

Bendorf on Rhine, Jan. 18, 19.

My Dear Folks:

Will answer your letter I received yesterday although I received it doesn't turn up soon to

make a change I'll have to stop writing, for every time I write, I can think of less to say. You, I guess, have the same trouble for some time you write five pages and other times only two. It is awful hard for me at least to think of anything to say especially after we have written two or three letters from one place. We have been here in Bendorf since the 17th of December, and don't know how much longer we will be here but of course the 2d division is a good fighting division and they may keep us over here for sometime. I heard some one say and swear that it was partly official that we would be here until Aug. 1919, but all the rumors we hear are official to the guy that goes around looking for official dope of course. I belong to the 2d division and 3d army. I am very proud to have been with such an outfit for every one you meet over here even the French have a good word for them. The Germans have a good word for the 5th and 6th marines and all one of the boys in my division got killed. Well Ma, about the 20th day of Feb. I think I will be in Paris writing you if I get the chance to take a run down there. Paris is only 70 miles from Brest. That is the port we make in France. Then coming back we stop at Hampton, England for a little coal and the Azores Islands for some things. Quite a trip. I hope you are all well. I am fine. Tell Warren hello and Pa and Grandma and Nan and all. I am just about 7,000 miles from old Jacksonville so I think I will say goodbye. With love to you all.
Your son,
Leonard.

U. S. S. Ohio, Feb. 9, 1919.
Mrs. Thos. Bento,
North Fayette Street,
Dear Mother and All:
I am fine and dandy and hope you and all are the same. I am writing this right at mid sea. We have 1500 miles to go yet. You see where we are going it is 3100 miles to the states and believe me she sure has got some roll. Right now she is taking water over a boat's deck that is about as high as they go. Say Ma, she sure is some, to make it short, but I guess I am as salty as the next one (our saying). When she rolls, roll with her and laugh. And say, yesterday we were all eating and one big wave hit us and I wish you could have seen the mess tables going. Turned them all upside down but we all stayed up good. I have seen very few seasick. I go on watch on the bridge at 8 bells tonight. My station is lookout forward and left to right up where the old man is and I got all night in and buns for breakfast; that is another one of our sayings. And say, yesterday I got a little bit scared to tell the truth. We got just a heavy sea roll. I thought we were not coming back but the old girl is a regular sailor now and come back without a scratch. Well Ma, this is Sunday and we have to be there by one more week. We have to go across the Bay of Biscay. They say it is some place. That is on our way back. We stop at the Azores Islands. Tell little Warren to think of old Len some night on a 12 to 4 a. m. watch standing up there in the cold and snow. I sure has been some bad weather. Of course we have it calm some time. You see, Ma, it does not cost a cent to send letters out here or in France. Of course all our mail will be put on another ship as soon as we get in port and sent right back, but we do not get any until we get back to the States which will be some time in March. I think we will be on our way in March anyway. Do they have the shipping bill in the papers? Then if they do you watch them in March about the 7th or from there on and see when we arrive. Yes, and tell little Warren I will get him something in France and England too if it is possible which I think it will be and of course I could not forget dear mother and dad. If I get a chance to get anything I will. So Ma I think this is a bit for today. I will write you again before we get over. So, I am as ever, with love, and love to all, your son
Leonard.

WRITES HOME.

Feb. 13, 1919.

My Dear Mrs. Clark:
I received your most welcome letter a few days ago, glad as you know yet somewhat surprised to hear from you. This leaves me just as happy as a boy can be a long long way from home and I hope this will find you the same.

Well Mrs. Clark I will only be to glad to take dinner with you and tell you all I know of France, that may not be a great deal, but I think it will be news anyway.

How is Clarence, you tell him that he has sure missed a lot by not being in the army as it make a good man out of a bad one and a better man of a good one so you see there is something to gain. You never know just how much to appreciate a home and friends until you are in the army and a long way from home, and I have seen parts of the world that I would have never seen otherwise. After all being a soldier is not as bad as it sounds.

Well I don't know just when I will be home, but I think I will come in with the birds and flowers of spring. I hope to anyway. Best regards to Mr. Clark and all the family. How is Opal you did not mention her in your letter. Where is Tom is he in the army or not. Give him my best regards.

Well I have lots of work so I will close. Will write again soon. Best wishes and thanking you in advance for the good dinner. I am as ever a friend.

INTERROGATION OF
WITNESS STOPPED

CHICAGO, March 11.—Federal Judge Landis late today stopped interrogation of witnesses and testimony in a several days investigation of the financial affairs of the Consumers Packing company and ordered Edward J. Ader, secretary and treasurer of the company until last Friday and Eli Pfaltzer, former president of the committee held to the grand jury in bonds of \$30,000 and \$25,000. The men were charged with using the mails to defraud in connection with the sale of stock in the company.

The action was taken after several LaSalle Brokers were questioned about selling liberty bonds for the company or its officials and after various witnesses had testified to buying stock partly or entirely with liberty bonds.

FIRE DOES LARGE DAMAGE

Chicago, March 11.—Fire of unknown origin damaged two units of the United States quarter-master's huge storehouse to an estimated damage of \$200,000 today. The building was said to contain supplies valued at \$500,000 including small arms and ammunition as well as foods and other stores. Weak water pressure and dense smoke hampered firemen some of whom used gas masks and electric torches.

TRIED BY COURTS MARTIAL

London, March 11.—Lieutenant Porten formerly an officer in the German aviation service has been tried by courts martial, according to Berlin advices received in Copenhagen and forwarded by the

Central News Agency, on a charge of having sold an entire park of airplanes at Vilna to the Bolsheviks for 2,000,000 marks. The airplanes were valued at 10,000,000 marks. Porten then fled to Koenigsburg and headed a conspiracy in the local workmen's council against the commander of the German garrison at Kovno.

The plot was discovered and Porten was arrested.

Ask Dad

Just ask Dad to stay at home one day and do the family wash.

Dad won't do it. He'll say there ought not to be a wash day at all — that the home isn't the place to do the wash.

Dad will say to send all the wash to the laundry. And Dad will be right.

All things considered it costs less to have us do the washing than to do it at home.

23 COUNTIES IN HEALTH CRUSADE

Movement Has Awakened Wide Spread Interest — Teachers Unite With Children in Record Keeping.

Twenty-three counties in Illinois have entered the National Modern Health Crusade Tournament to encourage personal hygiene among children, according to Miss M. Grace Osborne, director of School Activities of the State Tuberculosis Association, which is organizing the work of Illinois. Other counties which organized too late to join the tournament are going into the health crusade movement and having local contests.

The counties which have entered the national tournament besides Morgan are: Ogle, Jo Daviess, Bond, Whiteside, Bureau, Grundy, Ford, Kankakee, Iroquois, Livingston, Woodford, Tazewell, Peoria, Knox, Fulton, Cass, Jersey, Christian, Marian, Randolph, Adams and Williamson.

New York Boastful.
"New York City is boasting that it is going to carry off the national pennant in the contest," said Miss Osborne. "That boast has aroused much earnestness. They are working so diligently to keep the health records that I have no fear but that this state will carry off at least its share of the honors. The real contest is between the different communities in the state."

"A pennant is to be awarded to each division making the best personal hygiene record, the divisions being made according to ages. Illinois school children are determined to outshine New York."

Urbana is one of the cities of the state which is making a particularly strong fight for the pennant. The Urbana Commercial Association is backing the movement, and expects, thru the work of the Modern Health Crusaders, to be able to advertise Urbana as the cleanest and healthiest city in Illinois.

G. H. Dodenbaugh, a professor of engineering at the University of Illinois and Secretary of the Crusader Executive of Urbana, He is working on an engineer's plan, outlining the work of the Crusaders. When it is completed, copies will be sent to 500 cities in Illinois.

East St. Louis, thru its City Superintendent of Schools, D. Walter Potts, originated a feature which has been copied by nine cities and is recommended to all others. Gummed stickers with health rules printed on them were distributed among the school children to paste in the inside front covers of their books. This keeps the hygiene regula-

tions always before them and discourages the childish practice of scribbling on the unprinted pages of the books.

Parents Interested.
Jacksonville is not inclined to confine the health crusade among the children. Many parents and teachers also keep charts with daily records of their health chores.

Highland Park has a silver loving cup, donated by some of its citizens last year, wherein is engraved each year the name of the pupil who makes the greatest personal improvement in hygiene. It is not the best built pupil of the group, but the one who shows the greatest improvement in his physical condition who wins the honor. Last year a little girl who had been referred to as "A book worm" took the prize.

Cairo is another community which was organized in health crusade work last year, even though there was no national tournament to goad it on. The school children there contracted with the city to cart away all the rubbish they collected, and the city garbage handling appropriation was exhausted before the work was done. The Cairo Commercial Association contributed an extra \$700 to keep the bargain made with the Crusaders.

AN OLD TIME PAPER

The venerable John Barber living a few miles north of the city, brought to the Journal office a copy of an old time paper, The Utr County Gazette, Jan. 4, 1899. It contains an account of the funeral of Gen. Washington and many other items pertaining to those early days.

TELLS OF CONDITIONS ON FRENCH SOIL

Capt. T. O. Hardesty Writes Interesting Letter to Dr. Griswold—Territory Behind Each Front Is Practically in Normal Condition.

The letter which appears below was written by Capt. T. O. Hardesty, now in the medical department of the army overseas, to Dr. Griswold of this city. The writer gives a clear idea of conditions in the French territory near the various battle fronts, and tells of a seven days' leave which he had in February. The letter will be read with interest by Capt. Hardesty's many friends here and as follows:

February, 17, 1919.
Dr. H. L. Griswold,
Dear Doctor:

Your letter came today. I was glad to hear from you. It is so hard to get mail here. I never got a letter from my wife from Nov. 11 for 75 days—the last month has been doing better. I am situated 6 miles east of St. Aignan, 20 miles east of Tours, I came from Laffayre, thru Paris down thru Arlans, Blais. Landed here about Nov. 11. This was the 41 division (1st depot division). It had about 80,000 men.

Camp Described.
This tent camp out in a field six miles in the country has about 6,000 men. All B and C class men. I am a member of the disability board to classify men. The mornings I spend in surgical dressings, usually have 100 cases or more, each morning. I have four sergeants to help me. They stay here a while and are sent out. For three months I was not out of camp and saw no one except the soldiers. We do not come in contact with the French at this place. We hear but very little of the outside world.

We get a little army paper here but that is censored so it does not tell much. This Louis R. valley is one of the best in France. Grape vine district. The country is gently rolling. St. Aignan has about 5,000 people. A typical French town. All the buildings here are rock and most of the fences are rock also. The people mostly live in clusters—villages along the roads. Roads are rock and were fine till our trucks jammed them.

On Feb. 5 I had a 7 days' leave and went east to Dijon, thru north to Charnout, that is Pershing's headquarters. A little town on the head of the Marne. Here the country is hilly. Then I went north to Vitry and north to Rheims, saw the city and the trenches the Boche held for four years. Rheims was a city of 150,000 people. The champagne center of the world.

There is hardly a house intact, and now has less than 2,000 people. Shells would enter the houses, explode, take fire and all that is left is tottering walls. Block after block, for miles you could not believe how few houses were not hit.

I was in and thru the trenches that both sides used. Across "No Man's Land", over barb wire and all I saw trenches five miles behind the front. The country here is hill and valley. Then I went to Epervy; also with ruins, a champagne center. From Epervy to Chateau Thierry. This is on the Marne. The place where our boys fought. Our camp is full of the wounded from this battle.

Pelleau Woods is just north of the town. This woods is thick and black and after the battle you could hardly get out of sight of the dead Dutch and English. I will send you some pictures. The Germans held the bluff just north overlooking the town. The Marne here is not more than 150 feet wide. (In fact I have not seen a river larger than the Illinois river. Some of them 19 feet wide. The bridges here are all down.)

Battle Scared Country.

From here I went thru Paris thru Nooth, thru Clermont to Amiens, Arris, St. Pol, Bethenay, Lille to Minnes. Lille is in fair shape, (held by Boche four years) but from Clermont, north you are in the battle field all the time. Some towns of 15,000. You can hardly tell there ever was a town. All bridges are out and the destruction is complete. A strip from the coast to Switzerland, from 5 to 20 miles wide the destruction is almost complete also; most of it 90 per cent as far as improvement is concerned. The ground will not be damaged, so much, as all the ground here is worn out and requires 30 per cent of the income to fertilize for another crop.

In the territory behind each front. Conditions are about normal. This locality does not know war, only in the loss of power. Paris is a beautiful city population of 3,000,000 and is the life center of France.

You can buy any thing you want in France and prices I noticed depend on quality. Overcoats, good, \$30; suits, \$25 to \$35; shoes \$7 to \$15, depending on quality. The windows are full of stuff, just like N. Y., and in the main. Prices about the same. Beds in hotel, \$2; meals, 75c to \$2, up to \$8 or \$10, depending on what your order, and amount of champagne you use. Champagne about \$4 a bottle (so they say). Wine here is about like the cider, (sour). You seldom see intoxicated French, can't say that of Americans.

Versailles is about 15,000 in size. Here the war council stays. The only thing of importance is the king's palace. It required 27 years to build and grounds had 25,000 acres and a wall 27 miles long around it. It is the most beautiful place in the world. As much buildings as the Jacksonville State Hospital. I expect there are 500 statuary scattered over the grounds. All kinds of brass I have sent you some cards to give you an idea. I must close now.

Glad to hear from you any time. Never felt better or wanted to see my family or friends more in my life.

Respectfully,
T. O. Hardesty.

CENTENARY S. S. CLASS TO HAVE CONTEST

Loyal Men's Bible Class to Begin Membership and Attendance Contest Next Sunday.

The members of the Loyal Men's Bible class of Centenary church will next Sunday begin a membership and attendance contest, and already the interest is intense. The team captains are J. N. THE OLDEST COUNTY
RESIDENT COUNTY NATIVE
A short time since the Journal published an item stating that probably James O. Hamilton was the longest time resident of the city, having come here in 1834 and now comes the venerable Richard Stanley of Jo. Prairie and claims to be the oldest native resident of the county, having been born near his present home, Feb. 4, 1828. His parents came here from Kentucky and were Mr. and Mrs. Noble Stanley and settled on what has since been known for some time as the Walton farm though not by that name at present.

The old gentleman lives with his son Richard about a mile northwest of the place on which he first saw the light of day. In early life he was married to Miss Rachel Ausmus who died several years ago. They were the parents of twelve children, four of whom died in early childhood and one son, Henry, passing away at the age of eighteen. Those living are Cyrus of Greenwood county, Kansas; Philip of Moweaqua, Ill.; Jennie, Mrs. M. J. Valentine of Clark county, Kansas; Joseph of Kiowa county, Kansas; Edward and Richard of this county.

He also has two sisters, Mrs. Susan Zirby of the north part of the county and Mrs. James Smith of Grace Chapel vicinity. Mr. Stanley is a member of Illini Lodge, No. 4 I. O. O. F., and of Ridgely Encampment No. 9. He has ever borne a first class reputation and his sons and daughters have lived to do him credit.

For some years he has been a member of the home of his son Richard, who has tenderly cared for him and ministered to his wants as much as possible, always assisted by his family.

For the past few months Mr. Stanley has not been very strong and is feeling the infirmities of age.

If any person knows of an older native resident the Journal would be glad to be informed and also as to who is the now oldest person in the county.

HEART OF HUMANITY
LUTTRELL'S TODAY
The noble sacrifice of a little wife who left the picturesque beauty and quiet of a home among friends in a little community in the Canadian northwest to minister to the wants of homeless and orphaned children during the days when the flaming torch of Prussian ruthlessness was being carried by war-maddened hordes over the once-beautiful valleys and hills of France and Belgium, is the dominating theme of "The Heart of Humanity," the eight-reel production by Allen Holubar in which Dorothy Phillips scores the most distinctive triumph of her screen career.

This feature opens today at Luttrell's Majestic Theater with a supporting cast of more than ordinary excellence, including such favorites of William Stowell, Robert Anderson, Margaret Mann, Pat D'Malley, Walt Whitman, George Hackathorn, Gloria Joy, and others. The story of the play is by Allen Holubar and Olga Scholl and was adapted for the screen by Mr. Holubar.

Nanette, ward of Father Michael, the parish priest, and wife of John Patricia, oldest and handsomest of the five sons of the Widow Patricia, in the Canadian Expeditionary Forces, is so moved

by John's descriptions of the misery and suffering he has found among the children of France and Belgium, that she decides to go abroad as a Red Cross nurse.

In a convent in Flanders that has been converted into a refuge for orphaned and homeless children, the little wife works night and day to allay their sufferings and bring cheer into their hearts.

While engaged in this work she is captured by the Germans and brought before Eric von Strang, a Prussian officer who had once been her husband's college friend and who tried to make love to her in the little Canadian village.

Other interesting developments follow.

Real Estate, Loans And Insurance

March 1st is here and past. We have sold lots of farms the past year and a number of pieces of city property. Farms are going higher and city property is on the raise. We still have lots of farms for sale of any kind you want and city property of all kinds. If land is too high here, come in and talk it over, we have cheaper land in other states. We loan money on Real Estate, and write Insurance.

WAS A LUCKY DAY

SAYS MRS. O'CONNOR
Her Improvement, After Taking Tanlac, Was Simply Wonderful.
"It was certainly a lucky day for me when I got my first bottle of Tanlac," said Mrs. John O'Connor, of 338 East Oldham St., Knoxville, Tenn.
"For five or six years," she continued, "I had been in a dreadfully run down and nervous condition, was awfully weak and suffered with a kind of dizziness. I had terrible nervous headaches, and my stomach was so weak I couldn't digest even the lightest kind of food. I could sleep very little and became so despondent that I was afraid nothing could help me regain my health.
"I wouldn't have believed it if anybody had told me any medicine would cause me to gain eight pounds in ten days, but that is exactly what Tanlac has done for me. Soon after I started taking it I began to eat better, sleep like a baby and feel just fine and my steady improvement has simply been wonderful. I have thrown away all my other medicines and will stick to Tanlac, for I think it is the finest medicine on earth."
Tanlac is sold in Jacksonville by Coover & Shreve.—Adv.

WEAK, NERVOUS WOMEN
Benefited by Friends' Advice, Passes the Good Advice Along to Others
Milwaukee, Wis.—"I was weak, nervous, all run down, no appetite and had taken different medicines without benefit. A friend advised me to try Vinol. It gave me a wonderful appetite. I sleep well, have gained in weight and am now strong and well."—Mrs. E. Strej.
We strongly recommend Vinol, which contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates for all weak, nervous, run down conditions and to build up strength after sickness. For sale by all druggists.
P. S. Our Saxon Salve is truly wonderful for eczema. We guarantee it. Adv.

BAD SPRAINS OR MUSCLE STRAINS
Rub Pain, Ache, Soreness and Swelling Right Out With "St. Jacobs Liniment"
Rub it on a sprained ankle, wrist, shoulder, back or a sprain or strain anywhere, that's when you realize the magic in old, honest "St. Jacobs Liniment" because the moment it is applied, out comes the pain, ache, soreness and swelling. It penetrates right into the injured muscles, nerves, ligaments, tendons and bones, and relief comes instantly. It not merely kills pain, but soothes and heals the injury so a quick recovery is effected.
Get a small trial bottle of "St. Jacobs Liniment" right now at any drug store and stop suffering. Nothing else sets things straight so quickly—so thoroughly. It is the only application to rub on a bad sprain, strain, bruise or swelling.—Adv.

AVOID INDIGESTION BY SIMPLE RULE
If You Eat Fried Food, You Follow with a Stuart's Dyspepsia Tablet, Then You Won't Have Indigestion—Be sure to Do This
You get ravenous when you smell something frying. But you won't eat it because it hurts your stomach. But after it takes Stuart's Dyspepsia Tablets, they will be no gas, no sour risings, no lump in your throat, no biliousness, no dark brown taste in the morning. And whenever you are troubled, eat a tablet as soon as possible and relief will come promptly. These tablets correct the faults of a weak or overworked stomach; they do the work while the stomach is asleep and restore itself. Particularly effective are they for banquets and those whose environment brings them in contact with the rich food most apt to cause stomach derangement from the food. Relief in these cases always brings the glad smile. Get a box of Stuart's Dyspepsia Tablets, 50 cents, in any drug store throughout the United States and Canada.

BAD BREATH
Dr. Edwards' Olive Tablets Get at the Cause and Remove It
Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.
Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.
All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, purging or disagreeable effects.
Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.
Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

ANNIVERSARY OF STEAM NAVIGATION

Centennial of Atlantic Steam Navigation to be Celebrated in Savannah, Ga., May 22.—Fore-runner of Great Ocean Greyhounds Sailed May 22, 1918.
Savannah, Ga., March 5.—The centennial anniversary of transatlantic steam navigation will be celebrated here on May 22, the date when the Savannah, the first ship to cross the Atlantic propelled by steam and the forerunner of the great ocean greyhounds of today, sailed from this port for Liverpool on her historic voyage.
The Savannah was built at New York City and was launched on August 22, 1818. She was mastered by the two Rogers—Captain Moses Rogers being the commander and Captain Steven Rogers the sailing master. The vessel left New York City March 28, 1819, and arrived in this city for the first time on April 12, 1819.
On May 22, 1819, the trip across the Atlantic was started from this port. Everything went well until June 17, when the vessel was stopped by the British cutter Kite, whose commander thought the Savannah was on fire and stopped her to assist in fighting the flames.
The vessel was stopped outside Liverpool by an English sloop of war, whose commander wished the American vessel to display the British colors—above its own. Captain Rogers refused and threatened the British officer with a boiling water bath if he did not leave the ship. He immediately left.
The Savannah docked in Liverpool on June 20, after completing the voyage in twenty-nine days and eleven hours. The engines were used only eighteen days on the trip.
The entrance of the Savannah under a British flag caused excitement in Liverpool and while the vessel remained in port it was the center of interest. The Savannah then proceeded to Stockholm and on September 18, arrived at St. Petersburg, (now Petrograd) where she was inspected by the American and foreign minister and the nobility.
The ship left St. Petersburg on September 29, 1819, and arrived in Savannah on November 30, after an absence of 192 days.
This was the first and last trip of the Savannah across the Atlantic. Afterward her engines were removed and she was used as a sailing vessel between New York and Savannah. She was wrecked off Long Island in 1821.

GREAT INDUSTRIAL UNIVERSITY PLANNED
Cleveland, O., March 5.—A million dollar industrial university, said to be the only one of its kind in America, will be built by the Industrial Association of Cleveland, according to an announcement by President Charles Woodward.
The institution, to be completed by fall of 1920, will be operated along the plan of an academy, but the curriculum will be industrial and business topics. There will be classes in foremanship, clerical work, salesmanship, production, costs, mechanics and other subjects and suggested by association members. Twenty or more pupils may obtain particular instruction by petitioning the faculty.
The proposed six or ten story structure is to contain an auditorium with a seating capacity of 2,500, a gymnasium, swimming pool, other recreation rooms, and living quarters.
A faculty will be appointed to choose text books, organize classes and establish research departments and institute course of study, employers and employees address the students. The courses of training will be open to employers as well as employees.

FRENCH PARTIKULAR ABOUT SONS-IN-LAW
Chicago, March 5.—Antonin Barthelmy, French consul in Chicago, is receiving scores of letters from parents of French girls inquiring about prospective American sons-in-laws. The consul said that French parents are very particular as to their daughters' selections.
"I am very happy to say that answers I am making are practically all a declaration that the young men in question would make fine husbands," the consul said. "We are receiving inquiries regarding men whose homes are in various parts of the sixteen states to represent. We inquire and then submit a report. I presume many mademoiselles will come to America, to make their homes."

SEARCH FOR MISSING METEOR ENDED
Towanda, Pa., Feb. 25.—A search for a missing meteor, conducted by the United States Geological Survey, has ended in the reservoir of the Towanda Water Company. Incidentally it has enabled the company to account for the sudden disappearance of its ice crop on the night of January 22.
On the afternoon of the meteor's flight local officials visited the reservoir and decided to cut the floating crop of ice the next morning. During the night the meteor landed in the reservoir. When workmen went to harvest the ice, it had dwindled to a scant three inches, due it is asserted, to the heat of the meteor warming the water in the reservoir.
The reservoir will be drained in an effort to find the meteor.

WAR BONDS IN IRELAND
Dublin, Feb. 2.—Investments through Dublin in National War bonds have reached a total of £17,500,000. In 1918 the sales of war saving certificates more than doubled the record of previous years. The subscriptions came from Leinster and Connaught; Munster and Ulster having each an organization for the same purpose.

TRADING ON EXCHANGE LACKS ACTIVITY

NEW YORK, March 11.—Trading on the stock exchange today lacked the sustained activity and enthusiasm of yesterday's record session but the tendency was unmistakably upward after an irregular opening with many substantial gains at the close.
Both rails and shippings became decidedly strong later, the former advancing briskly on Washington advices which pointed to a satisfactory outcome of the conference between the Director General and the executives of the transportation companies.
Dealings were broadest and most active in the final hour, U. S. Steel rising almost two points to 38 and affiliated industrial equipments oils, tobaccos and distilling issues advancing 3 to 10 points.
Sales amounted to 2,000,000 shares.
Liquidity issues eased.
Total sales aggregated \$9,375,000.

LIFTING OF EMBARGO LOWERS CORN PRICES
CHICAGO, March 11.—Lifting of the railroad embargo against New York rallied the corn market today after prices had ruled lower during most of the session. The close was unsettled, 1/2c off to 2 1/2c net advance with May 1.36 1/4 to 1.37 1/4 and July 1.31 1/4 to 1.31 1/2. Oats finished unchanged to 1/2c higher. Provisions gained 50c to 1¢.
Corn showed strength only at the opening and the close. Initial quotations were due to assertions that excessive arrivals of hogs had become unlikely. The fact that of late the nearly continuous of 35¢ had been registered began to tell and prices under went a material sag.
Strike talk temporarily offset the natural influence of removal of the ban against railroad shipments to New York but denials of the strike reports came just before the close and there was a consequent sudden bulge in values at the last.
Provisions, which scored a general maximum advance owing to radically higher quotations on hogs.

ASKS FOR JUSTICE
FOR GERMAN PEOPLE

Field Marshal Von Buelow, Retired, declares it is right to punish those responsible for the war. Asks help in forming international community.

Amsterdam, Mar. 11.—(Correspondence of The Associated Press.)—"It is the right of our enemies to punish those responsible if there are men on the German side who are to blame for this war," declared Field Marshal Von Buelow, retired, in an interview with the Berlin correspondent of the Handelsblad. Von Buelow commanded the Second German army in 1914, was engaged in the fighting near Marbucge and was retired in 1915 owing to a paralytic stroke from which he has not yet quite recovered.

"As an old soldier I have not learned to ask for mercy," continued the Field Marshal. "I only ask for justice for the German people. We soldiers went out to fight by the Kaiser's orders because the government said the country was in danger. It was not our task as soldiers to investigate. If we had been told the truth our duty was merely to obey. If the German people were misled when they were told that they were assailed by a superior number of enemies, then may a curse be on those who, by false dealings, made three-quarters of mankind the enemies of a great peace-loving people. If there are wretches who deceived us when they said we were attacked, then they deserve the severest punishment, whoever they may be.

"But to destroy a great nation because it is misled by a few people is to sin against the spirit of human justice."

The Field Marshal, who is one of the founders of the society called The German Society for Civic Education, declared that Germany was now in the throes of a moral revolution. The materialistic philosophy, he said, would give way to a new one which would be crowned by the victory of the social idea.

"The one aim of the German Society for Civic Education," he said, "is to bring the German people back to the religion of human love. We ask all the intellectual leaders of the world to join us in forming an international community. It was the materialistic and mechanical conception of the world which ruined Germany. It will also destroy our enemies if they do not see that it is the spirit of the citizens which constructs a State."

ADVENTURES OF
FRENCH SOLDIERS

Remained in Hiding for More Than Four Years in German Occupied Territory—Owe Lives to Old Belgian Poacher.

Paris, Mar. 11.—(Correspondence of The Associated Press.)—The adventures of two French stragglers, Sergeant Lesquern and Private Levesque, who, becoming separated from their units after the battle of Charleroi, remained in hiding for more than four years in German occupied territory are told in the newspaper La Victoire. In the early days of the war, civilians helped the two soldiers but as the German domination became weightier, they took to the woods.

They made their home in the forest of Sapeigne in the vicinity of Sedan. Their dwelling was a dugout so concealed that it was never discovered although the forest which harbors wild bear and other game was a favorite hunting ground for German officers. The French stragglers lived on wild animals, hare and other game. One German who ventured into too close proximity of their dugout is also buried where he fell.

They made one attempt to escape in 1915, but on the Dutch frontier they were shot at by the German sentries and the sergeant was wounded, so the two of them returned to their forest. The severe winter of 1916 brought them terrible sufferings. They were snowed in and almost starved.

They owe their lives to an old Belgian poacher and smuggler who, throughout all the years of their adventures helped them with provisions. They are now in a French hospital recovering from the effects of their privations.

CHINESE PIRATES
REPORTED ACTIVE

Tokio, Feb. 4.—Chinese pirates are reported active off the coast of Shantung. A Japanese sailor who was found swimming in the sea and brought back to Japan, said he was one of the crew of 8 who sailed in a coasting schooner from Tsingtau. Off the Shantung coast three strange junks drew rapidly alongside and thirty pirates armed with pistols and swords boarded the schooner, looted the vessel and put the crew to the sword. The only survivor jumped overboard and kept afloat until rescued.

IRISH OPPOSE
RULE AGAINST HUNTING

Dublin, Feb. 3.—Instructions by the Central Sinn Fein Executive to stop hunting through Ireland pending the release of the Sinn Fein prisoners have not been welcomed in the country where the local hunts give a certain amount of employment and help the circulation of money among the farmers and shopkeepers. The men who hunt, the mainly of the wealthier classes, are not confined to one class and hunting is a popular amusement.

TO AMEND ABSENT
VOTER'S LAW

Springfield, March 7.—A bill introduced by Senator Buck of Massachusetts would amend the absent voter's law by providing that in case a voter is at home after having balloted by mail, he may go to the polls on Election day, see to the destruction of his mailed ballot and thereupon vote in the regular way.

INSTRUCTIONS FOR
FILING TAX RETURNS

Internal Revenue Bureau emphasizes the importance of accurate book accounts. Particularly for small businesses. Suggests formula for determining net income.

Washington, March 4.—Instructions for retail merchants on the filing of tax returns and the calculation of tax due, issued today by the internal revenue bureau, emphasize the importance of accurate book accounts, particularly for small businesses, as the first requisite in making reports. Periodical inventories also were advocated strongly.

The bureau suggested this formula for determining the net income of a retail merchant.

"Add the cost of merchandise bought for sale during the year, to the inventories taken at the beginning of the year. From this sum deduct the inventories taken at the end of the year. The balance is the cost of the goods sold. This cost, plus business, or 'overhead' expenses, when deducted from the gross receipts, gives the correct net income of the business. 'The inventory,' the revenue bureau statement added, 'is fully as important as the cash account in determining the gain or loss in a retail business.'

"In making their inventories at the end of each taxable year, retailers may list the values by either of two methods: (1) the cost of the goods, or (2) the cost or market price, whichever is lower. The freight, express, cartage and storage costs may be added to the cost of each lot of goods.

"Besides the net cost of goods sold, the retailer is allowed to deduct from his gross sales for the year the necessary expenses incidental to the business. No per-

sonal, family or living expenses of any kind may be included in such deductions. The ordinary retailer might have as expense clerk hire, rent of business property, interest on his business, indebtedness, and taxes on his business and business property. Also, there may be ordinary repairs, bad debts charged off the books during the year; other expenses, such as insurance, light, heat, telephone, feed for delivery horses, repairs and upkeep of delivery wagons, supplies and upkeep for motor trucks, etc.

"Under the item 'wear and tear,' a retailer may claim reasonable depreciation on property used in the business. On fixtures the allowance is usually 5 per cent or 10 per cent of the cost price; on horses and wagons, 10 per cent; on motor trucks, 20 per cent.

"The individual retailer may take a salary for his services, but if he does so, he must consider such salary as part of his income."

CHEAP IMMIGRANT
LABOR PROHIBITED

Tokio, Feb. 9.—The prohibition of cheap immigrant labor, except under special permission of the authorities, is by no means a dead letter in Japan. Eight hundred Chinese coolies recently were sent back to Antung under police escort by the Home Minister.

Commenting on this incident M. Zuma, editor of the Herald of Asia, tells his countrymen that the policy that excludes Japanese labor from America and Australia, makes it possible for Japanese laborers to earn a living at home.

The coolies in question had been imported from Antung by an iron manufacturer at Hiroshima, who lost \$25,000 by the operation.

PACKARD PRICE INSURANCE

In fairness and justice to all purchasers of Packard transportation units, whether Packard Trucks or the famous Twin Six Passenger Cars, we wish to make plain our position regarding prices for the coming year

THE Packard policy is nothing short of absolute insurance of your investment at present price quotations.

If at any period during 1919, by reason of lower costs of material and labor, or for any other reason, this Company finds it possible to make a price reduction, this reduction will not only be made, but made retroactive; and we will refund to every previous 1919 purchaser the full amount of the difference between the price he paid and the new price.

If, on the other hand, production costs should increase and a higher price become necessary, the present purchaser has the advantage of his investment as the new price will apply only to those whose orders are received after the change is announced.

As we stated some weeks ago, Packard prices are carefully and accurately based on the cost of material and labor. There was no artificial inflation during the war, and costs have not decreased since we last manufactured for private consumption, consequently there is no leeway for a price reduction now.

If a reduction becomes possible, every present buyer sees his investment protected and insured.

This policy, while unique in the automobile world today, is consistent with Packard policy in the past, and seems to us the most fair and straightforward way of meeting present conditions.

Were we to make a guarantee that present prices would be maintained, it would mean a one-sided bargain in favor of the manufacturer, as it would prevent us giving the buyer a reduction, should material and labor costs justify a reduction.

The Packard Company makes a greater percentage of all the parts that enter into its cars and trucks than is made by any other fine automobile concern in America. It does this because it cannot buy and assemble parts that are up to the Packard standard of service and quality.

Skilled labor of necessity enters very largely into the production of so beautiful, so simple and so proficient a mechanism.

The net result is that the upkeep of a Packard Twin Six is less than that of compromise cars at half or two-thirds the Packard price.

To the man who can afford the first cost, a Packard delivers utility value for every dollar of his investment, greater economy, less depreciation and it does not ask him or his family to compromise in the service, the comfort, the safety of their motoring.

From present indications there will not be enough of either Packard cars or trucks to meet the demand this year.

Trucks are ready for immediate delivery. Your order for a Packard Twin Six passenger car of any model should be registered with your Packard dealer at once to insure late spring delivery.
